

GreenFoam Landscape Pad

- GreenFoam Landscape pad is a high quality environmentally friendly shock absorbing and drainage pad for use beneath commercial and residential synthetic turf systems.
- GreenFoam pad is made from 99% recycled, non-contaminated post industrial cross link closed cell polyethylene foam. The product is 100% recyclable.
- The highly porous design of GreenFoam Landscape Pad underneath synthetic turf enhances field drainage both vertically and laterally.
- Depending on local soil conditions, GreenFoam Landscape pad can be used as partial or total replacement of crushed stone beneath turf.
- Features a geotextile fabric on one side of product to inhibit weed growth.
- Material does not absorb water or other liquids so it is ready to play shortly after rain stops.
- GreenFoam is highly elastic so it retains its shock absorption characteristics for many years.
- GreenFoam is completely free of rubber.
- GreenFoam is lead and heavy metal free.
- Material is non-degradable.
- 8 Year Warranty with 2-3 Turf Cycle Life Expectancy.
- Available in 4' x 6' Panels or 4' x 210' rolls.

Product Data Sheet

Material Composition: 99% Recycled, non-contaminated, post industrial, cross-link, closed cell polyethylene foam.
Test Data & MSDS sheets available on request.

3/4" Medium Density Landscape Pad – Planed on one side

	Measurement	Test Method	Results
Weight:	Average		.75-.95 lbs. per sq. ft.
Thickness:	Direct		.75" +1/16"
Density:	Average		9-11lbs/cubic feet
Tensile Strength:		ASTM 3574	34-36 PSI
Horizontal Flow Rate:	Average	ASTM 4716 250 PSF; 41% Slope	.8527 Gal/Min/Ft
Vertical Permeability:	Average	ASTM D 2474	>36 Gal/Min/sq. ft.
Transmissivity m2/sec	Average	ASTM 4716	4.25E-004
