SIZING:

ArtificialTurfSupply.com makes it easy for you to get an artificial turf grass quote right from your computer. ArtificialTurfSupply.com features pricing that is substantially less than suggested retail prices. You can save up to thousands of dollars on your artificial turf grass project! We set very competitive prices for all of our artificial turf grass products. You can always be assured of our dedication to providing you with the most competitive pricing and exceptional value.

All of our artificial turf grass measures 15 foot in width and are available in any length, however, rolls with lengths over 60 feet are challenging to move without the proper man power or the help of a forklift. When measuring the area you have designated for your new artificial turf grass system, it is important to think in widths of 15' and multiply accordingly. Rolls of turf can be seamed together successfully to create widths of 30', 45', 60', etc. The length can be as long as you wish – ArtificialTurfSupply.com is able to cut the turf to any length. Pricing for our turf is determined upon volume and product line selected, but can easily be calculated automatically using our Get a Quote page.

Questions?

As always, the consultants at ArtificialTurfSupply.com are eager to help in any way we can. Please contact us if you have any questions. You can reach us by phone, **706.659.4513**.
